24 FEB 2011

HQMC SAFETY DIVISION
(NAVAL SAFETY CENTER)

Mishap Investigator/ Ground Training Analyst

Captain Rob Carson

0302

HQMC (SD) DET MISSION

1. Safety Surveys (standardization of safety training)
2. Mishap data trend analysis
3. Provide technical (SMEs) advice (Vehicles, Explosives, Artillery)
4. Learning and understanding H-Factors
5. Provide SIB Advisors
6. Provide Best Practices and Lessons Learned to the Fleet

Safety Surveys

- Tactical Operations
  - Tactical Training
  - Live Fire
  - Other Field Training
    - HRST
    - Jump
    - MT
    - Artillery
    - CSS/Embark/Maintenance

What You Get

- In-house Review with an outside set of eyes
- Evaluation of ORM process
- Sharing of Best Practices/Lessons Learned
- Provide Commander a proactive approach to safety which is unbiased and not attributional
- Mishap Procedures Training
- TSS training on how to asses tactical operations
- Active Duty Perspective

How It Works

- Unit sends request
- We approve it
- Units Sends All SOPS, LOIs, ORM’s applicable to the training being conducted
- We conduct an Admin Review before be arrive on Station to develop tailored checklist before we arrive
- Evaluate the execution of the training based off the provided material and applicable MCO’s

CRITICAL AREAS OF CONCERN

- SOPs practical application
- Qualification and Verification RSO/OIC. Ammo handlers, drivers.
- ORM Worksheet
- Safety Briefs
- Drive Safe Order
- Adherence to MCOs and TMs

ADMINISTRATION

- Survey is generally provided at no cost to the unit
- Team is built using SME’s from various MOS’s to provide the best overall review.
- Target survey dates to get the most bang for your buck
- Survey results remain with the unit commander and CMC (SD)/Naval Safety Center

ıat Tactical Surveys Don’t

- Check to see if you have daisy chained power cords
- Tell you what to train
- Release survey to higher command
